

Italiano II – a little geography

Take a look at the map of Italy below. For homework, please choose one region, possibly different from the rest of the class. You may work in pairs, if you like. Then research for the following information and put it in a Power-point presentation:

1. Where is it? North, Center or South?
2. Its capital, main cities, sea/river/lakes (some geographical features);
3. Main vacation resorts (in the mountains/on the coast or lake)
4. Some famous celebrations from this region
5. At least one regional recipe (what is it based on?)
6. If they have a special regional product
7. Any information you may consider relevant or interesting.

Since this is a cultural presentation, it can be in English. Make sure your presentation answers all the above questions and that it has some good pictures. Be ready to present in class.
