A new school year is starting, and you are meeting students you have not seen in a while (or that you meet for the first time). Get together with your partner, and find out how/where s/he spent his/her summer (30 minutes). Take notes in the grid on the right (don't rewrite the whole answer), and get ready to report the results to Ms. P. *Please notice that the questions are just hints: you need to come up with the complete questions, and then add a few more of your own.*
